Note: The following is the output of transcribing from an audio/video recording from Zoom. Although the transcription is fairly accurate, in some cases it is incomplete or inaccurate due to inaudible passages or transcription errors, and in some cases, words spoken by one participant may be inaccurately attributed to another. It is posted as an aid to understanding the proceedings at the meeting, but should not be treated as an authoritative record.

15

00:01:30.360 --> 00:01:34.680

Salmon Rivers: Okay. The recording is running. So you're gonna call the meeting to order them.

16

00:01:36.420 --> 00:01:38.850

Salmon Rivers: Oh yeah you, Mr. Chairman.

17

00:01:40.590 --> 00:01:52.470

Salmon Rivers: Meaning noise. Yeah, there we go. And the, the attendees are Jackie murky is here from the village of parish Katie is here is the executive director of tongue help

18

00:01:53.910 --> 00:01:57.450

Salmon Rivers: Mayor Perkins, he's here from the village.

19

00:01:58.500 --> 00:02:04.110

Salmon Rivers: Village and parish Mike partner is present his supervisor of the town of Albion

20

00:02:04.710 --> 00:02:19.500

Salmon Rivers: Matt Johnson is here from Doug Hill and of course bill is here is supervisor of Orwellian a chairman of salmon rivers and Marianne. Phillips's here as the supervisor of the town of parish. So those are our attendees.

21

00:02:23.790 --> 00:02:32.310

Salmon Rivers: Under financial report, I need to get a financial report from fiscal agent who is Kevin by, I can tell you that I'm sure our fiscal status is

22

00:02:33.030 --> 00:02:47.100

Salmon Rivers: Satisfactory. The last time we had a significant fund balance and I will get you a report, and I don't remember right off hand whether I forwarded the annual financial report to you, but if I didn't know get that to you.

23

00:02:48.660 --> 00:02:52.110

Salmon Rivers: Yeah, Kevin prepares an annual financial report. 00:02:54.720 --> 00:03:04.620 Salmon Rivers: All the money does all the other stuff for the developer, he does that, as fiscal agent. So if I believe I got that in PDF form that I can, I can send to you and I'll get that out to you. 25 00:03:09.450 --> 00:03:09.690 And 2.6 00:03:14.820 --> 00:03:23.100 Salmon Rivers: One of the things we haven't done since this is our first meeting in 2020 years old, our officers for 2020 so we should probably elect our officers for 2020 and then 00:03:23.580 --> 00:03:31.110 Salmon Rivers: I was down at the bottom of the agenda. You'll note that I was guessing, our next meeting be in January. So we could elect our 2021 officers. 28 00:03:32.850 --> 00:03:44.040 Salmon Rivers: Do we have any other option we have is being displayed here. We just 20 through 21, we could probably have elected for for both years, why not 29 00:03:45.120 --> 00:03:48.480 Salmon Rivers: We have any nominations for various positions. 30 00:03:50.040 --> 00:04:09.630 Salmon Rivers: What what our choices. Well, we, we have. And I think it would be we've created. We had pillars is our continued chair, we need a vice chair and then of course the village of parishes our fiscal agent. I'm willing to do. Okay. Do we have any volunteers for vice president or chair. 31 00:04:17.130 --> 00:04:21.990 Salmon Rivers: They can't hear what you're saying no. Everybody's everybody can talk. Who wants to talk 32 00:04:28.020 --> 00:04:40.980 Salmon Rivers: Elected very well. The other thing we can do, and this is

a time honored precedent is to elect to office that people that aren't present so we could make make can, if I recall. That's how I yeah so I

mean

```
33
00:04:42.390 --> 00:04:47.010
Salmon Rivers: Yeah, we could we could make Cathy fanboy. The, the Vice
Chair.
34
00:04:48.690 --> 00:04:48.990
Katie Malinowski: Chair.
00:04:49.380 --> 00:04:54.450
Salmon Rivers: Precedent president, I don't know. That's me. Well, I
know, but it's effective.
36
00:04:57.450 --> 00:04:58.590
Jacquie Murphy: snooze, you lose.
00:04:59.280 --> 00:05:03.510
Salmon Rivers: Well, we could we could make do our Vice Chair
38
00:05:05.400 --> 00:05:15.270
Salmon Rivers: Really the duties of the Vice Chair pretty pretty light I
from time to time throughout the year, we need to, you know, of course we
do. The, the meetings that we
00:05:15.660 --> 00:05:28.380
Salmon Rivers: Are supposed to do at least twice a year but and beyond
that occasionally we need a signature on a grant application and maybe
the chair isn't available. So we go to the Vice Chair, but it's really
fairly light duty being vice chair so
00:05:29.490 --> 00:05:29.910
Salmon Rivers: That's my
41
00:05:30.510 --> 00:05:36.660
Salmon Rivers: Yankee from Jackie Murphy is a trustee for the village of
parish. Okay.
00:05:39.480 --> 00:05:53.520
Salmon Rivers: Thank you. And she has been a frequent participant in all
kinds of training and meetings and she's been to our seminars meetings
before and talking commission meeting. So she's definitely an active and
involved an informed person.
```

00:05:54.240 --> 00:05:57.930

```
Katie Malinowski: Thank you been to some of the cod supercar meetings to
Jackie.
44
00:05:58.140 --> 00:05:59.520
Jacquie Murphy: Yes, I have.
45
00:06:00.330 --> 00:06:06.810
Salmon Rivers: Well, I think. Jackie, would be a good choice for Vice
Chair. And she said, well, there we go. You're gonna go Jackie. I don't
46
00:06:09.630 --> 00:06:12.990
Jacquie Murphy: I'm going to hold you to your, your word that there's not
a whole lot involved.
47
00:06:13.740 --> 00:06:27.030
Salmon Rivers: Experience. So yeah, I'll tell you how light. It's been
i'm not sure where existing Vice Chair is to tell you the truth, but I
don't think I've had occasion to need to know that in the last year so
48
00:06:28.080 --> 00:06:29.130
Salmon Rivers: That's how like the duty.
00:06:30.780 --> 00:06:35.820
Salmon Rivers: And then we'll have village parish as our fiscal agent.
50
00:06:39.870 --> 00:06:46.560
Salmon Rivers: With that slate established unless anybody has any
additional nominations. Why don't we
51
00:06:47.610 --> 00:06:48.600
Salmon Rivers: Have a vote on that.
52
00:06:50.640 --> 00:06:51.210
Positions
53
00:06:52.350 --> 00:06:54.960
Salmon Rivers: Chair. VICE CHAIR AND fiscal agent. Yeah.
00:06:59.970 --> 00:07:00.300
Salmon Rivers: Right.
00:07:03.150 --> 00:07:05.460
```

Salmon Rivers: Very good. I'm gonna say it unanimous.

56

00:07:08.010 --> 00:07:13.290

Salmon Rivers: Okay. So Katie, that puts you online report from toggle

57

00:07:14.910 --> 00:07:19.470

Katie Malinowski: Sure. Thanks, Paul. Um, I don't have anything really specifically prepared.

58

00:07:21.360 --> 00:07:33.960

Katie Malinowski: We've been as everyone else trying to just get through this coven situation. We went totally remote back mid March, just before the government conference which we had to cancel, which was very difficult for us.

59

00:07:34.470 --> 00:07:44.340

Katie Malinowski: That's, you know, our favorite event of the year and that really was hard, but did what we had to do. We were remote through the beginning of June.

60

00:07:45.060 --> 00:07:57.330

Katie Malinowski: And then we've been back in the office at a 50% capacity until just recently circuit writers like Paul, we're not attending meetings there for a few months, but have been back

61

00:07:58.200 --> 00:08:13.740

Katie Malinowski: We switched to zoom for a lot of our work and that seemed to be a good move. I think the communities were held glad to be able to use that, especially in the early days, and I think maybe we're going back to that here for the short term.

62

00:08:15.510 --> 00:08:31.770

Katie Malinowski: As far as budget goes. We went under really strict spending guidelines right out of the gate of coven we really were restricted on our non personal services spending to just the bare minimum, whenever we needed to get through.

63

00:08:33.000 --> 00:08:37.560

Katie Malinowski: We have not. And so we also were bracing ourselves for a mid budget year cut

64

00:08:38.100 --> 00:08:45.450

Katie Malinowski: Because we didn't know what was going to happen. You see the headlines with the fist. The end of the data say getting worse and worse. So we're very frugal

65

00:08:46.080 --> 00:08:53.280

Katie Malinowski: And never came. Which is good. And now here we are in November. So I think we're, you know, we're good to the end of this fiscal year.

66

00:08:54.150 --> 00:09:06.300

Katie Malinowski: We, there is a strict hiring freeze. So right now we are down one circuit rider our circuit writer that serves the northern Oneida County area that's been bacon since January.

67

00:09:07.170 --> 00:09:20.790

Katie Malinowski: 1 we're making do with staff covering things as well as they have now three associate circuit riders that they hire at all. They don't hire the contract with to cover their municipal meetings.

68

00:09:21.900 --> 00:09:32.820

Katie Malinowski: And I don't know when we'll be able to hire again you will all see how the New Year comes in. If there's a big federal stimulus bill that helps out the state that might make things better, but

69

00:09:33.450 --> 00:09:42.600

Katie Malinowski: You know, who knows we're just kind of working with what we have right now. We got a budget call letter for the upcoming budget, which is

70

00:09:44.400 --> 00:09:55.110

Katie Malinowski: Budget, the source April 1 and they were asked to take a 5% cut, which we have in the upcoming fiscal year, which we were able to absorb

71

00:09:55.860 --> 00:10:09.750

Katie Malinowski: In our non personal services budget because we're saving a lot of money. I mean, I guess that's the one side of code is we're not traveling, we're not doing meetings and his expenses that we would normally have so

72

00:10:09.990 --> 00:10:12.240

Katie Malinowski: As long as we're operating in this kind of

73

00:10:12.330 --> 00:10:32.160

Katie Malinowski: Environment. We can absorb the cut without effects on personnel on there's been no appetite. I believe from Albany to do any kind of budget of personnel cuts, no layoffs of the state workforce on which we've seen in past in past fiscal crisis processes policies.

```
74
00:10:33.990 --> 00:10:37.290
Katie Malinowski: We have been hearing rumors of a potential
7.5
00:10:38.310 --> 00:10:43.950
Katie Malinowski: Retirement incentive for state employees to, I think,
lighten the person you know the salary load.
76
00:10:45.090 --> 00:11:01.320
Katie Malinowski: That has not happened. There were several bills being
proposed, but legislature and everyone back into session this fall to do
anything like that. So we'll wait and see what happens come January when
the legislature reconvenes if we end up seeing something like that.
77
00:11:02.370 --> 00:11:18.960
Katie Malinowski: We have two staff members who, it would be hard for
them to return down a significant retirement send a package Paul being
one of them on Jean Waterbury being the other. So we just kind of wait
and see. As far as that kind of thing goes
78
00:11:20.310 --> 00:11:27.810
Katie Malinowski: We've been trying to deliver all of our services, the
best weekend we did a bunch of training the fall for Planning and Zoning
boards. We tried
79
00:11:28.230 --> 00:11:35.160
Katie Malinowski: Doing some hybrid hybrid. Where was in person and
remote there weren't a lot of takers on the in person training.
80
00:11:35.880 --> 00:11:44.010
Katie Malinowski: Was primarily via zoom. We've recorded all those and
put them on YouTube. We've kind of learned a new way of doing business.
Honestly, to some extent.
00:11:44.910 --> 00:11:54.600
Katie Malinowski: And I think we've done a pretty good job of it.
Overall, as well as our communities. You know you've all had to learn
different ways of doing things, and everyone has really stepped up to the
plate. So I think, you know, everybody should
00:11:54.900 --> 00:12:05.490
Katie Malinowski: Feel good about what you've been doing these last
several months, it's not been an easy time and now you know.
```

Unfortunately, it looks like we are heading into another couple of tough

months.

```
83
00:12:06.870 --> 00:12:13.230
Katie Malinowski: You know, I, who knows, you see the news, same as me as
far as vaccines. It looks like there's positive news on that.
84
00:12:14.460 --> 00:12:31.680
Katie Malinowski: But it's going to take time to distribute and there's
going to be certain populations that are going to get it first. So, you
know, I expect. And this is a tea leaf thing, you know, I'm trying to
read them. We won't be back to any kind of normalcy till the summer into
the fall, probably
8.5
00:12:32.880 --> 00:12:47.880
Katie Malinowski: You know, I don't think we don't plan to help
technically the LDC is just suspended right now. We haven't canceled it,
but I don't think we're going to be having any local government
conference at the end of March. I don't even think our venue GCC would
allow us on campus at this point.
86
00:12:48.990 --> 00:13:01.290
Katie Malinowski: So we just kind of continue. We're trying to be as
responsive as we can to community requests. So, and I know Paul is doing
a great job with Zoom's and obviously he's got the technology down. He's
got you guys on
00:13:01.770 --> 00:13:08.220
Katie Malinowski: You know what's you on a screen him on a screen is
called Great, so by be happy to take any questions.
00:13:14.940 --> 00:13:15.750
Alright, thanks.
29
00:13:16.920 --> 00:13:23.640
Salmon Rivers: Katie, a couple things you could mention if I wanted to.
It was in our last meeting agenda had to do with
00:13:24.990 --> 00:13:28.560
Salmon Rivers: Wildlife Management Area legislation and maintenance
roads.
91
00:13:29.760 --> 00:13:46.320
Katie Malinowski: Yep, to legislative items. There was a bill posed based
on the work of really the salmon rivers and reaching out to well Barkley
you're suddenly suddenly person about the wildlife management areas that
don't pay taxes.
```

```
92
00:13:47.160 --> 00:13:52.770
Katie Malinowski: That builds out there hasn't been any. I can't remember
a same as on that.
00:13:54.390 --> 00:13:57.600
Katie Malinowski: Jesus, I can't remember. Is there a Senate bill
COMPANION BILL ON THAT.
94
00:13:59.010 --> 00:14:06.060
Katie Malinowski: But without any real effort to lobby or try to push
that it's just sat there, that hasn't went anywhere.
95
00:14:06.480 --> 00:14:20.430
Katie Malinowski: I'm not to say that, you know, it could you should
probably think about whether you want to ask for that to be reintroduced
because we're come January 1 it will be a new session. So you if you want
that bill to carry over. It would have to be reintroduced
96
00:14:21.750 --> 00:14:34.920
Katie Malinowski: And, you know, to get to really go anywhere would take
some some heavy lifting. And I don't know if this year is going to be the
time do that any bills that have $1 amount attached to them might be
difficult to get through.
97
00:14:36.120 --> 00:14:37.320
Salmon Rivers: That on that. Yeah.
98
00:14:38.220 --> 00:14:41.010
Katie Malinowski: As far as the minimum maintenance roads bill.
99
00:14:42.030 --> 00:14:58.890
Katie Malinowski: We had some positive things happening with that we
continue to have some positive things we've had additional co sponsors on
the assembly bill. We've had Majority members. Adding on to the bill,
which is the key to getting anywhere is having some Majority members in
support.
100
00:15:00.870 --> 00:15:09.090
Katie Malinowski: The Senate passed the bill last year, I don't. They
never bothered to pass it this year until they knew that there was a
clear path for it and the assembly.
101
```

00:15:09.960 --> 00:15:27.210

Katie Malinowski: Assembly Transportation Committee continues to be the Roadblock, we've had conversations with their staff people as as recently as October to get some actual hard feedback on the bill. And what we could you know what can we do to modify it to satisfy their concerns.

102

00:15:28.650 --> 00:15:32.400

Katie Malinowski: I think this is still an uphill battle, we've been kind of

103

00:15:33.510 --> 00:15:39.390

Katie Malinowski: Trying to behind the scenes. Think about it. Should we try some different approach.

104

00:15:40.170 --> 00:15:49.590

Katie Malinowski: I don't know. I don't know what's going to happen with that. But there's still a lot of interest, certainly on again will Barclay has been a big proponent as well. And with him in the

105

00:15:50.460 --> 00:15:56.430

Katie Malinowski: In his new you know position as a minority leader does does help because he can get the attention of people

106

00:15:58.020 --> 00:16:10.680

Katie Malinowski: You know that perhaps one of giving them as much attention in the past. So that's kind of where that's out to we were as far as the let the lawsuit. That's still pending on

107

00:16:12.180 --> 00:16:20.580

Katie Malinowski: From the town of Western which is in Louis County, which has had the challenges to their minimum maintenance road law, a couple of times.

108

00:16:21.060 --> 00:16:28.350

Katie Malinowski: And it's always gotten thrown out of the appeals court on technicalities really the appeals court has never weighed in on the

109

00:16:28.830 --> 00:16:43.110

Katie Malinowski: The real meat of the issue is back in the appeals court again is still waiting for a decision, it got held up because of CO good last I checked, maybe a month ago, it still hadn't been still wasn't on the docket.

110

00:16:43.620 --> 00:16:56.460

Katie Malinowski: So it might be into 2021 before we have a decision on that lawsuit. Now if that lawsuit were to be decided and were to uphold

the the Home Rule authority of the towns that would be a very positive thing. And that would take  $\frac{1}{2}$ 

111

00:16:57.090 --> 00:17:02.760

Katie Malinowski: Some of the the you know the importance of getting this bill through because

112

00:17:03.690 --> 00:17:20.700

Katie Malinowski: If the, you know, if the course support it, then it's not such an issue. But if for some reason the courts rule on that that lawsuit and they find against the town and it's on the meat of the issue. Then we're going to be in trouble. So that's why we continue to have as a high priority.

113

00:17:22.710 --> 00:17:33.840

Salmon Rivers: We're good. No in the meeting a year ago, you mentioned that the Comptroller was expected to do an analysis by really in 2020 you know if that ever happened.

114

00:17:34.170 --> 00:17:35.190

Katie Malinowski: It did not happen.

115

00:17:35.310 --> 00:17:36.990

Katie Malinowski: I followed up on that.

116

00:17:37.020 --> 00:17:48.900

Katie Malinowski: And unfortunately, they kind of after expressing some interest later said, well, this we don't have the time to do this. It's not a priority.

117

00:17:50.820 --> 00:18:02.190

Katie Malinowski: Which was frustrating on and I think I got the news of that I want to say right in January, February, and so I never pushed it any farther. And then cove. It happened and

118

00:18:03.000 --> 00:18:10.170

Katie Malinowski: I figured it probably wasn't worth my effort on that much as much as the bill and the sponsors and that kind of thing.

119

00:18:10.890 --> 00:18:19.620

Katie Malinowski: Is something we could look into. I don't think that's the make or break thing it would have been nice to have a controller report in our back pocket that weighed in on this and supported it.

00:18:20.280 --> 00:18:25.500

Katie Malinowski: But I don't. I think the end of the day, we got to get the assembly transportation over their home, unfortunately.

121

00:18:28.080 --> 00:18:35.250

Salmon Rivers: Marianne has a question. You really want to speak up, because the microphones over here. So we were talking about the wildlife.

122

00:18:36.630 --> 00:18:39.810

A good time to do a question is if we don't do anything with it.

123

00:18:40.920 --> 00:18:44.100

Should we try to keep it going, even though we know it's not going to pay us

124

00:18:45.240 --> 00:18:53.580

Salmon Rivers: Money, but what's, what's the better scenario, do something or is it something where we want to put it on hold for a year and considered in 2022

125

00:18:53.850 --> 00:18:55.860

Salmon Rivers: Keep it keep it on and keep it on the burner, but

126

00:18:56.130 --> 00:19:08.520

Katie Malinowski: The back burner for now. I don't know, there's something I think might be a good question for the Assemblyman he might have a thought on that mean if you if you re up the bill at least is out there and it's kind of like a placeholder.

127

00:19:09.870 --> 00:19:15.360

Katie Malinowski: If you don't react the bill then, you know, get it reintroduced then I don't

128

00:19:15.840 --> 00:19:25.830

Katie Malinowski: I don't know if it's harder if you don't automatically have that happen at a new legislative session or not I, I would have to ask him that. And I could ask him that I usually

129

00:19:26.370 --> 00:19:37.110

Katie Malinowski: In a normal year at the end of November, beginning of December, I kind of do a round of visits with all of our state legislators, just to kind of touch base and let them know how we are and see, you know, let him not peas are see if there's anything

00:19:37.380 --> 00:19:42.240 Katie Malinowski: That they need from us. So I need to do that. So I could ask them that. When I meet with them, which will 00:19:42.540 --> 00:19:43.620 Katie Malinowski: Eventually, I guess. 132 00:19:44.010 --> 00:19:52.830 Salmon Rivers: We didn't bring it up with the narcotic meeting but narcotic is affected by that as well. And I'm pretty sure North dog is also interested in that. And I think there's interest from Santa nervous as well so 133 00:19:53.280 --> 00:20:01.590 Salmon Rivers: I think it's safe to say that there's still an interest in how are the best way to proceed as is more a question of strategy, but you know if 134 00:20:02.220 --> 00:20:10.470 Salmon Rivers: I wanted to share with the salmon nervous group, the experience of the village of Cleveland village Cleveland finally got some improvements. 135 00:20:10.890 --> 00:20:18.780 Salmon Rivers: After literally decades decades of pursuing various funding sources and resources to get that done so. 136 00:20:19.380 --> 00:20:33.600 Salmon Rivers: Their persistence paid off. And it took a long time, but if they hadn't been interested. I'm sure it wouldn't have happened. So I think sometimes persistence is worthwhile and sometimes things take longer than you'd like, but you don't get anywhere by not pursuing them. 00:20:36.690 --> 00:20:39.540 Salmon Rivers: All there. There are some of those still around. Absolutely. 138 00:20:40.920 --> 00:20:44.250 Katie Malinowski: No, I will put it on my list to ask, well, when I meet with them. 139 00:20:44.490 --> 00:20:55.290 Salmon Rivers: The good question, because I think there is still the

North Shore and seven servers interest and this Isabel, by the way, that

does basically the ego county part of the tug Hill region.

```
140
00:20:57.030 --> 00:20:58.710
Salmon Rivers: So this is on a specific
141
00:21:00.780 --> 00:21:02.820
Salmon Rivers: Mainly impacting our strengths amateurs.
00:21:04.980 --> 00:21:05.670
Salmon Rivers: Very good.
143
00:21:08.040 --> 00:21:11.220
Salmon Rivers: Any other questions for Katie or format.
144
00:21:15.990 --> 00:21:20.190
Salmon Rivers: There. Any other questions for Katie or for Matt and move
on to
145
00:21:21.720 --> 00:21:31.860
Salmon Rivers: All business and the question of a contractor and we can
give you a little bit of a report on that based on, we had the the
nurturer meeting last Friday and
146
00:21:32.970 --> 00:21:45.990
Salmon Rivers: Everybody in North Shore was interested in seeing us move
forward on that and we're currently in the process of looking at, you
know, contracts and descriptions of the duties that are expected and so
on.
147
00:21:47.160 --> 00:21:50.520
Salmon Rivers: But they are, they were interested in moving things
forward and
148
00:21:52.200 --> 00:22:03.480
Salmon Rivers: I'm going to gather that I've heard active interest from
the seminar Uber's communities on that as well because they're impacted
as much as Marcia is especially with the second Tuesday of the month. My
149
00:22:04.260 --> 00:22:12.510
Salmon Rivers: Wanting to be in three and sometimes four and five places
at the same time. And sometimes I make three, but when it gets to four
and five. That's definitely
150
```

00:22:13.110 --> 00:22:21.870

Salmon Rivers: Off the table and and of course in the wintertime travel time slow me down between Cleveland and Albion or so that also makes it difficult to hit three so

151

00:22:22.740 --> 00:22:35.670

Salmon Rivers: I'm going, I'm going to assume that that salmon rivers is still interested in moving forward on that and I've been mentioning at the round of meetings this month that we are looking for potential candidates for that.

152

00:22:36.750 --> 00:22:44.910

Salmon Rivers: Contractor position because the experience with the other cast has been word of mouth advertising has been our best source for

153

00:22:45.420 --> 00:22:56.310

Salmon Rivers: Candidates, so we're actively soliciting for candidates. At this point, that would be considered by both North Shore in salmon rivers and the other thing is, of course,

154

00:22:56.940 --> 00:23:09.300

Salmon Rivers: Katie mentioned some of the cogs have multiple contractors, and I would like to see multiple people identified as contractors as well because we're not guaranteeing anybody a

155

00:23:10.080 --> 00:23:19.980

Salmon Rivers: Minimum through this. It doesn't cost us anything to have more than one contractor, but it does give me more than one person to call. So in case I need somebody for the second Tuesday in December.

156

00:23:20.490 --> 00:23:33.000

Salmon Rivers: And the person I usually have do that isn't available. I've got somebody else I can call because if I've got if I've got a potential to use a contractor. It's nice to be able to call more than one person, one person and workout. So

157

00:23:36.240 --> 00:23:40.440

Salmon Rivers: Does anybody have any questions about that or comments or

158

00:23:44.550 --> 00:23:45.180

Salmon Rivers: Yeah.

159

00:23:47.850 --> 00:24:03.810

Salmon Rivers: Yeah because generally you get to buy me just as I'm interning well let last month I did better. But it's because I skipped

Albion army was long. Yeah, it was. But I was there, I was there. Probably about 715 and your meetings are at seven. So, but yeah.

160

00:24:05.370 --> 00:24:09.810

Salmon Rivers: And boy isn't here is I can talk smack on them. There was the night that

161

00:24:10.440 --> 00:24:23.550

Salmon Rivers: And boy had a town board meeting, it's their meetings or seven o'clock, and I had no other meetings to go to, but I was running a little bit late, I showed up at 705 and they were walking out the meeting was done well.

162

00:24:24.000 --> 00:24:27.210

Salmon Rivers: The night that Kathy Wilkins in the supervisor wasn't there.

163

00:24:27.390 --> 00:24:33.600

Salmon Rivers: She left things in the hands of the deputy. So they went in sat down paid the bills adjourn, they're out of there.

164

00:24:36.000 --> 00:24:40.560

Salmon Rivers: Something some meetings are very quick sometimes slow you don't you don't know that.

165

00:24:41.700 --> 00:24:52.140

Salmon Rivers: But yeah, last month because Mike was interested in having the meeting zoomed I was able to get together staff to assist with hosting that meeting.

166

00:24:53.100 --> 00:24:59.970

Salmon Rivers: And I went to Cleveland first and then I went directly on up to Orwell so I was able to catch your meeting fairly early, but it doesn't always work out that way.

167

00:25:00.480 --> 00:25:14.790

Salmon Rivers: And of course, the whole situation with meetings and zooming these days is kind of throws a wrench in the schedule anyway. They're definitely be a help to have an additional contractor to to call on for special occasions, so

168

00:25:16.230 --> 00:25:22.830

Salmon Rivers: Very good. I'm going to assume as an objective that will be continuing to move forward on that getting candidates identified and

```
00:25:24.480 --> 00:25:37.050
Salmon Rivers: Designating some people that I can call him last year and
will be circulating some materials via email. KATIE SENT some materials
along I think to the North Shore and possible samples contracts.
170
00:25:37.350 --> 00:25:42.660
Katie Malinowski: Yeah, I did. I sent see th seeds and no cogs. So I'll
send them to all of you to after the
171
00:25:42.660 --> 00:25:45.210
Salmon Rivers: Meeting well yeah if you hit Reply All on the
172
00:25:45.270 --> 00:25:53.400
Salmon Rivers: Emails, I've been relegated to everybody, because there
are some people that are here today that sometimes show up. For example,
173
00:25:54.480 --> 00:26:04.710
Salmon Rivers: I send an invitation out to Tim Kelly, who sometimes
attends representing and boy, especially if Kathy camp, I guess, Tim was
not available today. So
174
00:26:05.670 --> 00:26:14.250
Salmon Rivers: But he's he's only been another one of those people like
Jackie who's been very active in looped into things and knows what's
going on with our group so
175
00:26:16.380 --> 00:26:17.160
Salmon Rivers: Okay.
176
00:26:19.980 --> 00:26:21.510
See that's
177
00:26:23.760 --> 00:26:36.780
Salmon Rivers: Six. And I'm jotting down numbers on my agenda keep track
of the notes to reconstruct all this new management and the next thing I
see her on the agenda is nurture and seminars assumption of circuit
riders cell phone past
178
00:26:38.430 --> 00:26:47.460
Salmon Rivers: As you recall, a little bit more than a year ago was North
Shore and seven rivers instead of contracting with Doug Hill for
```

169

00:26:48.840 --> 00:26:54.270

Salmon Rivers: Covering the cost went to paying them directly. And that's been a benefit to North Shore and Sam nervous.

180

00:26:54.900 --> 00:27:10.230

Salmon Rivers: Because it's actually reduced our costs. And the reason for that has been primarily because when we had a contract with tongue help to cover my expenses of mileage and miscellaneous expenses and whatever else cell phone.

181

00:27:11.850 --> 00:27:17.220

Salmon Rivers: Tequila had to make sure that they took in at least as much as they're going to pay out for the mileage

182

00:27:19.560 --> 00:27:24.990

Salmon Rivers: But the problem with that is, is that they took in at least that much in the contract if it turned out we didn't

183

00:27:25.950 --> 00:27:33.120

Salmon Rivers: I didn't have that much in the way of expenses tug hell did not benefit from it. It all just rolled over and went into the the

184

00:27:33.840 --> 00:27:48.420

Salmon Rivers: state treasury because Tom Hill has several sources of income heart of it is directly from the state. You've heard of this from external sources like salmon rivers but in some of those special revenue accounts, they're not allowed to keep money past the fiscal year.

185

00:27:49.620 --> 00:28:00.570

Salmon Rivers: So by going to North Shore and seven are splitting the cost and paying me directly, and actually meant that you're paying exactly the amount that my mileage costs.

186

00:28:01.650 --> 00:28:08.910

Salmon Rivers: So we did that as a Vegas probably closer to a year and a half ago now with the start of the fiscal year of 19 to 20

187

00:28:09.660 --> 00:28:17.250

Salmon Rivers: But one of the costs that we talked about that we haven't assumed yet is a a cell phone and it's good writer toggle is currently paying for that.

188

00:28:17.730 --> 00:28:24.000

Salmon Rivers: Took him. He used to have a plan really had multiple people on it and it's down to where now I'm the only person left

```
189
00:28:24.360 --> 00:28:35.550
Salmon Rivers: On it and we had agreed to assume that cost. We just
haven't implemented it yet. So we talked about that and what our needs
are and I'm doing some shopping for the lowest cost for that and
190
00:28:37.140 --> 00:28:39.900
Salmon Rivers: I'm not sure how much the tug Hill plan is
00:28:41.400 --> 00:28:44.310
Katie Malinowski: I think it's about 30 or 35 bucks a
192
00:28:44.310 --> 00:28:44.610
Salmon Rivers: Month.
193
00:28:45.330 --> 00:28:48.240
Katie Malinowski: You have like a really basic phone and
194
00:28:48.630 --> 00:29:04.650
Salmon Rivers: Plan woman Nicholas current plan. I have doesn't even
include data, which would be useful, on occasion, because, on occasion,
I've had to resume resort to using my own personal data plan for work
needs for it. I've used my my phone is a last ditch.
195
00:29:05.670 --> 00:29:14.520
Salmon Rivers: Last Resort way of covering meetings via zoom when my
internet was down so plan one data as
196
00:29:17.190 --> 00:29:33.480
Salmon Rivers: Well, the one that I have personally right now is about 35
and actually I think I can bring it down lower than that because when I
take a look at what the actual data needs are, that I think I can get a
plan that has even lower data than that and
197
00:29:34.500 --> 00:29:37.290
Salmon Rivers: I think because a lot of the plans, these days are
198
00:29:38.670 --> 00:29:49.350
Salmon Rivers: Unlimited phone and unlimited texting. Yeah, so that's not
really an issue. The main question is, is the data plan, but there are
some plans that are a little bit more modest on the amount of data and
199
```

00:29:50.430 --> 00:29:57.630

Salmon Rivers: So I would run that by each of the cogs. When I come up with our proposal for a plan. 200 00:29:59.460 --> 00:30:00.240 Salmon Rivers: But that's an 201  $00:30:02.580 \longrightarrow 00:30:09.270$ Salmon Rivers: Cost that we were talking about assuming, and I guess we're getting ready to implement that if that's agreeable to everybody. 202 00:30:09.840 --> 00:30:11.520 Katie Malinowski: And that would be split again with 203 00:30:12.480 --> 00:30:21.090 Salmon Rivers: split between North Shore in Salmon River is nurture approved it. And they also improved purchase of a phone. They didn't specify \$1 amount and I'd be looking at one of the 204 00:30:21.720 --> 00:30:36.720 Salmon Rivers: fairly minimal Android say you can find a couple hundred dollars. I'm not talking about buying an apple or anything like that, which are more expensive. Here's what I have personally, but I wouldn't expect to nurture them nervous to necessarily cover that I know the apple se 205 00:30:38.190 --> 00:30:42.660 Salmon Rivers: Yeah, the epilepsy is \$400 and it's a little more than that, if you get the enhanced 206

00:30:43.710 --> 00:30:45.240 Salmon Rivers: enhanced version.

207

00:30:46.620 --> 00:30:57.240

Salmon Rivers: I know I can get there are some good good Motorola's on the market between 203 hundred and Android. So, and I would run that by everybody. Before I made a decision on that but

208

00:30:59.070 --> 00:31:06.690

Salmon Rivers: That would give me maintaining this it would probably be his new cell phone number. I don't know if I can transfer the cell phone number, not I guess it depends on who we go with

209

00:31:06.990 --> 00:31:13.650

Katie Malinowski: You probably will be able to, I'm guessing most plans, you can be. Yeah, so

210

00:31:14.310 --> 00:31:21.480

Salmon Rivers: I'd work that out with Katie and the toggle folks on whether I can maintain the number of gotten out of minimize this speed bump with  $\[ \frac{1}{2} + \frac{$ 

211

00:31:22.590 --> 00:31:23.400 Salmon Rivers: The transition

212

00:31:24.510 --> 00:31:35.520

Salmon Rivers: So if all that sounds Okay to everybody. I'll continue to work on that are on the specifics by you, when I have specifics and we will assume that a cost.

213

00:31:39.600 --> 00:31:55.740

Salmon Rivers: The next thing we had down is North Shore and seminar rivers equipment purchases and that came up in our shark because when we're talking about taking on the cost of the cell phone plan, and possibly buying a phone, I talked about a couple other things that would probably be

214

00:31:56.760 --> 00:31:58.050 Salmon Rivers: Useful one is

215

00:31:59.730 --> 00:32:11.280

Salmon Rivers: And these again would be expenses that would be split with an archer but not sure approved me getting a newer laptop, because this laptop that I have right now it's covering you is is ancient if they

216

00:32:14.430 --> 00:32:19.470

Salmon Rivers: Would have to take a look to get on it, but I'm going to guess it's probably like about seven years old. And if I

217

00:32:20.100 --> 00:32:31.620

Salmon Rivers: Can just broken in. Well, you know, it's getting to where it's really slow. I think when I got it. It was a Windows. Windows Vista computer. Oh, which which had the anymore.

218

00:32:32.310 --> 00:32:48.360

Salmon Rivers: Which had the the opportunity to upgraded to Windows seven, which I was able to do. And then I was actually unbelievably I was able to get it to convert to Windows 10 when when the time came along,

but every time a new upgrade comes out, it seems to slow down just a little bit more and

219

00:32:49.740 --> 00:32:58.380

Salmon Rivers: Probably useful as a spare or as a second computer because right now I'm running the zoom session with two computers. One of them is facing the audience and with a webcam there.

220

00:32:58.830 --> 00:33:07.530

Salmon Rivers: And one of them is this one that I'm looking at right now with can. This is my own personal computer that I'm using, which I don't mind doing but

221

00:33:07.830 --> 00:33:16.710

Salmon Rivers: The experience has been with him state employees and using personal stuff that if something happens to it. It's on me at the brakes. Well, bad who paid for it.

222

00:33:17.730 --> 00:33:20.220

Salmon Rivers: It would, if I had a second laptop.

223

00:33:21.480 --> 00:33:32.370

Salmon Rivers: I could use that laptop is the primary means of streaming session and then just use the older laptop is it back out backstop rather than my own laptop so

224

00:33:34.800 --> 00:33:42.330

Salmon Rivers: Yeah, well, when buying a new one. I went by one with a bigger screen because, again, that way I could have a bigger screen when we're doing things like this, you'd have a bigger screen as well cat.

225

00:33:44.100 --> 00:33:44.460

Salmon Rivers: Yeah.

226

00:33:44.580 --> 00:33:46.710

Katie Malinowski: I've got so many technology things. We never

227

00:33:46.710 --> 00:33:47.790

Katie Malinowski: Thought we need to worry

228

00:33:47.790 --> 00:33:48.300

About

229

00:33:51.180 --> 00:33:55.770

Salmon Rivers: This is driving a lot of it if it hadn't been for coven we wouldn't be hearing some of these things. And I'd probably just

230

00:33:56.370 --> 00:34:04.620

Salmon Rivers: Struggle on with the old, the old laptop, because it does run Windows 10 and it normally does. What I want to, but this whole zoom thing is put more of a demand on it and

231

00:34:05.550 --> 00:34:07.860

Salmon Rivers: So yeah, I would get, I would get one with a

232

00:34:08.040 --> 00:34:15.270

Salmon Rivers: bigger screen to make that part of it easier for everybody. And they can line, line in my mind.

233

00:34:17.220 --> 00:34:27.720

Salmon Rivers: You know, I know some of the bigger screens are bigger. I don't mind putting the the weight around. It's not a big deal. But of course the the newer ones don't have DVD drives me lighten up a little bit because of that. So,

234

00:34:30.270 --> 00:34:32.400

Salmon Rivers: Yeah, well I manage

235

00:34:33.570 --> 00:34:43.020

Salmon Rivers: South Bend, but yeah for the larger screen is is a good idea because of the way I'm using it now where people all in a room and he's recession would like to be able to see things

236

00:34:43.680 --> 00:34:53.370

Salmon Rivers: So the other thing that North Star approved that I wanted to talk to you about Cole proving and then I would get you a bill from probably from your shark is natural and probably cover it and then Bill, you

237

00:34:54.660 --> 00:35:00.990

Salmon Rivers: Because we want to buy a tax exempt and the sharpest agent has taxing some stuff in line.

238

00:35:02.250 --> 00:35:09.810

Salmon Rivers: Through various vendors, is I'd like to talk about getting the color printer, probably a color laser printer, because again, more and more things.

```
239
00:35:10.440 --> 00:35:24.000
Salmon Rivers: Require color. And when I'm running things off, and
sometimes I do that for distribution to my miserable board you have
things like maps that can be color coded in when it turns into all shades
of grey, you can always tell what intended meeting was that was
240
00:35:25.500 \longrightarrow 00:35:31.740
Salmon Rivers: That they wanted to convey to you. So I would like to ask
you to consider purchasing a color laser printer.
2.41
00:35:34.260 --> 00:35:38.820
Salmon Rivers: I'm going to guess that's probably going to be under $500
I haven't tried them yet, but
242
00:35:39.300 --> 00:35:50.910
Salmon Rivers: Again, keep in mind that the cost to you is only going to
be half of that because are approximately half a bit more than half
because we're spending an underutilized toner, the real cost is in the
toner. Yeah.
243
00:35:51.510 --> 00:36:03.210
Katie Malinowski: Although I have a color laser printer at home, myself,
my personal one. And the laser toner last a long time and you can get
pretty reasonable ones through Amazon.
244
00:36:03.660 --> 00:36:06.570
Salmon Rivers: Know what kind of a color laser printed you have Katie
2.45
00:36:08.220 --> 00:36:11.280
Katie Malinowski: I can't remember, but I could send you the information
I had it.
246
00:36:11.280 --> 00:36:14.250
Katie Malinowski: For a long time, and this is actually, we always had
the cheap.
247
00:36:14.280 --> 00:36:15.630
Salmon Rivers: inkjet yeah
2/18
00:36:15.840 --> 00:36:17.310
Katie Malinowski: And they just didn't last and
249
00:36:17.310 --> 00:36:23.250
```

```
Katie Malinowski: So we spent a little bit more on the printer. But it's
lasted a lot longer. And there's it doesn't go through the Inkling jets
do
250
00:36:23.340 --> 00:36:26.340
Salmon Rivers: Know the color current is an inkjet eat you alive when it
251
00:36:27.960 --> 00:36:28.740
Katie Malinowski: I'll send it to you.
252
00:36:29.040 --> 00:36:36.960
Salmon Rivers: Know, send me the information on that. I've been as of
late. I've been pretty partial to my brother printers, but I'll take a
look and see what there is out there that's reasonable cost.
253
00:36:37.260 --> 00:36:50.700
Salmon Rivers: And I don't see this as being a high volume type of thing.
I mean, I've got a black and white laser printer that works now and I
would probably still use that for the bulk of my normal day to day black
and white needs which would conserve on the toner bit too.
2.54
00:36:51.960 --> 00:36:52.380
So,
255
00:36:53.730 --> 00:36:55.890
Salmon Rivers: Does that sounds satisfactory to everybody.
2.56
00:37:01.230 --> 00:37:01.650
Mike Faulkner: Yes.
257
00:37:02.430 --> 00:37:04.470
Salmon Rivers: As soon as that sounds. Okay.
258
00:37:05.700 --> 00:37:08.790
Salmon Rivers: Is there anything else we need to cover under old
business.
259
00:37:10.470 --> 00:37:12.480
Salmon Rivers: Is if not we'll move to New business and
260
00:37:14.820 --> 00:37:27.150
```

Salmon Rivers: Major item under new business that I had down was the renewal of the inner municipal agreement we operate under a municipal agreement that was last passed in June of 2015

261

00:37:28.290 --> 00:37:40.440

Salmon Rivers: And the way inner municipal agreements work is basically that this is the authorizing document that lets us work together and have a fiscal agent and pay for bills and Bill are individual municipalities.

262

00:37:42.390 --> 00:37:52.470

Salmon Rivers: There is, I forget whether it's just a cute or a case law or what it is. But basically, there's something that says you got to renew and approve them once every five years.

263

00:37:53.340 --> 00:38:02.250

Salmon Rivers: So we're past that five year mark now and if the inner municipal dreamin I handed out for those of you that are here and then I emailed everybody

264

00:38:02.820 --> 00:38:18.360

Salmon Rivers: Is exactly the same as the one that we are underwriting right now. The only differences, the date at the top of the first page and the dates of adoption unless page. And if this is satisfactory to you, these are basically the rules that we operate under

265

00:38:20.220 --> 00:38:31.410

Salmon Rivers: We would need to run it by the individual participants each town village for them to really adopt the inter municipal Adrian and sign it and then we'd be good for another five years.

266

00:38:32.880 --> 00:38:41.340

Salmon Rivers: So this is where we are now. But before we introduce it to our individual municipalities, I wanted to make sure that everybody was familiar with it, and that

267

00:38:42.540 --> 00:38:44.640

Salmon Rivers: Everybody was comfortable with it.

268

00:38:46.830 --> 00:39:00.240

Salmon Rivers: Of course we're past our cycle of municipal meetings at this point. So you got some time to review it if there's anything from any of you that you are not comfortable with it or you think must be changed.

269

00:39:02.190 --> 00:39:12.000

Salmon Rivers: I won't introduce it to the December cycle meetings. We can talk about it at our, you know, we can kick it back and forth on email and talk about it at our next seminar rivers meeting.

00:39:12.690 --> 00:39:22.230 Salmon Rivers: If there are no objections, then I'll introduce it within you know prior to the December round of meetings already has a chance to look at it and you can distribute it to your board and 2.71 00:39:22.980 --> 00:39:29.520 Salmon Rivers: I was going to put it on my agenda. That sounds good to me. Does it does not just tell them. There you go. 2.72 00:39:30.600 --> 00:39:31.050 Salmon Rivers: Hey, well, 273 00:39:34.380 --> 00:39:34.740 Salmon Rivers: Yeah. 2.74 00:39:36.510 --> 00:39:48.300 Salmon Rivers: So if that sounds Okay everybody take a look at it. If you have any objections, let me know. But otherwise I'll assume that it's okay with everybody and we can have our individual municipalities consider 275 00:39:49.560 --> 00:39:50.250 Salmon Rivers: That sound. Okay. 2.76 00:39:52.290 --> 00:39:52.920 Salmon Rivers: Okay. 277 00:39:55.140 --> 00:39:56.730 Salmon Rivers: Yes, I can just go ahead and 278

Z / O

00:39:58.080 --> 00:40:09.960

Salmon Rivers: Oh yeah, you didn't have your municipality, the only the only difficulty would be as if Paris came up with me. Oh, we absolutely need to change this thing we all basically have to agree to the same version. So just don't change anything.

279

00:40:14.040 --> 00:40:15.720

Salmon Rivers: signature page. Now, here we go.

```
00:40:16.980 --> 00:40:17.700
Salmon Rivers: There we go.
2.81
00:40:22.500 --> 00:40:30.630
Salmon Rivers: Okay, that's all of the items I had under new business. Do
we have any other items of business, we need to bring up under new
business.
282
00:40:38.040 --> 00:40:38.820
Salmon Rivers: I don't know.
2.83
00:40:42.540 --> 00:40:44.040
Katie Malinowski: I couldn't hear her. She said,
284
00:40:44.850 --> 00:40:58.290
Salmon Rivers: She was very she didn't hear Marion, didn't she couldn't
hear you. Katie was asking what your question was, and I would repeat
that Marianne was asking if anybody knew of any good places for Christmas
shopping, other than Amazon.
285
00:41:03.870 --> 00:41:04.140
Matt Johnson: Oh,
286
00:41:08.280 --> 00:41:08.670
Salmon Rivers: Yeah.
287
00:41:11.370 --> 00:41:13.110
Katie Malinowski: Homemade homemade gifts. Right.
288
00:41:13.170 --> 00:41:17.850
Katie Malinowski: We go back to the basics. Yeah, I know people wanna
289
00:41:20.880 --> 00:41:21.750
Matt Johnson: sterilize them.
290
00:41:22.410 --> 00:41:22.680
Yeah.
291
00:41:23.850 --> 00:41:24.360
Katie Malinowski: That's right.
292
00:41:27.150 --> 00:41:30.150
```

Salmon Rivers: Here your hand sanitizer sanitizer Christmas. 293 00:41:30.570 --> 00:41:36.180 Katie Malinowski: Although I read an article just today that it's really not the surface is that you have to be worried about 294 00:41:36.420 --> 00:41:38.730 Katie Malinowski: Yeah, most part it's the aerosol 295 00:41:38.820 --> 00:41:45.690 Salmon Rivers: Really, there's no, yeah, no, that's kind of what I felt. But Hand washing is always a good thing. 296 00:41:50.490 --> 00:42:07.440 Salmon Rivers: Well, if there is no other older new business to be brought up. I guess we could talk about our next meeting date and location and any agenda items to anticipate. He was suggesting, January 2021 urine Albion and 297 00:42:08.640 --> 00:42:17.700 Salmon Rivers: I guess what's up. I don't think that's gonna happen. Well, then it could be, it could also be the next meeting. Maybe we'll do purely via zoom right along, you know, 298 00:42:18.270 --> 00:42:32.700 Salmon Rivers: I say wait six months. Okay. And we've taken care of. I need you know a realistic, I think, wow, realistic. I think you're being realistic built because the other. I, I will tell you, I will share with you something I shared with 00:42:33.630 --> 00:42:38.130 Salmon Rivers: Katie and Matt earlier. And that is, I mean, the town of a boy. 300 00:42:38.970 --> 00:42:46.350

Salmon Rivers: Has already asked me to set up a zoom meeting for their December meeting because they're not sure whether, when we get closer to the December meeting.

301

00:42:46.800 --> 00:42:53.970

Salmon Rivers: We're actually going to be meeting as groups. Again, or whether they'll have tighten the group sizes back down again, there's been some

00:42:54.960 --> 00:43:08.430

Salmon Rivers: I think misunderstanding that the group sizes have already been reduced. And to the best of my knowledge, that's not the case at this time in Oswego County, but it could change by location, it could change.

303

00:43:08.970 --> 00:43:19.620

Salmon Rivers: By the date through time. So we really don't know Sam boy asked me to do a zoom session for them in December, just to be on the safe side in case things Frank down again, they can still meet

304

00:43:20.340 --> 00:43:31.050

Salmon Rivers: Yannick question on in so many ways because that's something that they have to consider as well, you know, because my last meeting had too many people on that well.

305

00:43:32.820 --> 00:43:41.490

Salmon Rivers: If I'm having public hearing. Is there a way for you to put a link on our website, so the public can agenda leading

306

00:43:42.780 --> 00:43:51.720

Salmon Rivers: Absolutely. And I'll give you an example. I know we're confronting this in parish right now. Actually, we did. We did an employee. We did a public hearing

307

00:43:53.580 --> 00:43:56.250

Salmon Rivers: For their comprehensive plan update via zoom

308

00:43:58.140 --> 00:44:06.930

Salmon Rivers: And in parish. They're doing a public hearing on December 2 v. As of now, right now we're figuring the there is a certain

309

00:44:07.710 --> 00:44:15.000

Salmon Rivers: In house attendance that we can allow and they're requiring people to sign up in advance so they know when they reached the limit

310

00:44:15.600 --> 00:44:31.380

Salmon Rivers: And where the cutoff will be, but they're also making the the hearing available via zoom. So yes, you can definitely do a hearings via zoom in all his meetings. Right now it's through December 3 but I anticipate the governor, as long as the current

311

00:44:33.270 --> 00:44:45.240

Salmon Rivers: Conditions continue as they are, he will continue to authorize meetings and hearings via zoom because it's necessary. Right now we have people that don't want to attend meetings.

00:44:45.690 --> 00:44:55.440 Salmon Rivers: Because of health reasons not to attend and they want to make sure that they're being safe and it's a good idea to offer them a safe alternative 313 00:44:56.520 --> 00:44:57.840 And I know I've got 314 00:44:59.580 --> 00:45:02.730 Salmon Rivers: Don't ask me what is I know I've had a couple of 315 00:45:04.920 --> 00:45:07.230 Salmon Rivers: Water Project. Yeah, and 316 00:45:12.150 --> 00:45:20.970 Salmon Rivers: You can definitely do that. And if you just had one and you can also do what I've been calling hybrid sessions which are what this is, today, where you have currently in person, but you have 317 00:45:21.180 --> 00:45:33.900 Salmon Rivers: remote participants as well. And yeah, and on the envoy, and on the parish comm site. I've put links in advance, where you can click on it and go into the meeting. And then I just go into what's called a waiting room, and then I just admit you 318 00:45:35.370 --> 00:45:35.880 Salmon Rivers: Session. 319 00:45:38.070 --> 00:45:38.340 Salmon Rivers: Yeah. 320 00:45:39.360 --> 00:45:47.700 Salmon Rivers: So when you need to do that. Keep that in mind. And again, sometimes it's been an occasion where it was on like your second Tuesday of the month. 321 00:45:48.210 --> 00:45:52.740 Salmon Rivers: It might be tug Hill helping you, somebody might be Katie

or Matt helping you, rather than me being there.

```
322
00:45:53.130 --> 00:45:59.520
Salmon Rivers: But I also might be there and have them help Albion or
help Cleveland if they were at the same need that night so
323
00:46:00.240 --> 00:46:09.270
Salmon Rivers: So yeah, we've talked to staff is, I think, has been
outstanding in their, their outreach. We've had all of our staff,
including the big primarily based
324
00:46:09.930 --> 00:46:25.500
Salmon Rivers: Watertown office staff helping with hosting meetings and
keeping things going like that. So it's more than just the circuit riders
that are helping our municipalities honest, it's the whole the whole
staff, including our executive director. And that was our plan and I
325
00:46:27.540 --> 00:46:30.900
Salmon Rivers: I guess I can call my acting planning directors and say
haven't officially
326
00:46:31.200 --> 00:46:33.660
Salmon Rivers: Yeah, I've been using the title, we can't
00:46:33.810 --> 00:46:35.460
Katie Malinowski: Can't let them be acting forever.
328
00:46:35.640 --> 00:46:38.010
Katie Malinowski: Yeah, really, is to get as raised to go with it.
329
00:46:38.700 --> 00:46:43.650
Salmon Rivers: Well, when when you're getting met helping you with one of
your sessions, you're getting top people so
330
00:46:46.290 --> 00:46:48.030
Salmon Rivers: Katie is Katie is the top
331
00:46:48.960 --> 00:47:01.770
Katie Malinowski: Stop, stop, stop. You know, I have to say it's been
hard, but it's, I don't know, it's gotten to know people differently in
this in this way, you know, because you're a little bit more personal.
You're seeing people's living rooms and
332
00:47:02.850 --> 00:47:03.720
Katie Malinowski: You know, it's like
```

```
333
00:47:03.780 --> 00:47:10.590
Katie Malinowski: I don't know if I quess that's one thing is I think
it's has brought us together a little bit more, a little more personal.
334
00:47:12.570 --> 00:47:14.670
Katie Malinowski: Gotta look for the upside. Yep.
335
00:47:15.180 --> 00:47:19.050
Salmon Rivers: And then I think it definitely is is I think all along.
We've had
336
00:47:21.240 --> 00:47:34.140
Salmon Rivers: unmet need to offer our meetings to people who may be
mobility challenged or let's face it in our climate. They may be whether
challenge where they would like to attend a meeting, but whether keeps
them from the meeting in
337
00:47:34.530 --> 00:47:43.500
Salmon Rivers: Echo zoom becoming a continuing part of municipal life if
it becomes authorized on a longer term basis rather than month. A month
because
338
00:47:43.830 --> 00:47:50.250
Salmon Rivers: Well, I'll give you an example. And this is the village of
parish and the village of parish. There was one night that their village
attorney.
339
00:47:50.670 --> 00:48:01.080
Salmon Rivers: was out of town on their meeting night and normally that
would mean that he couldn't participate, but he could because we set up a
zoom meeting and he's zoomed into the meeting and was able to
340
00:48:01.650 --> 00:48:14.130
Salmon Rivers: To participate in be a value to the village. So it's
really helped break down some barriers that have, you know, that's a good
good additional way to help everybody gets her better. Yeah, I was.
341
00:48:18.330 --> 00:48:20.400
gonna cancel this. You got it.
342
00:48:22.320 \longrightarrow 00:48:23.310
Salmon Rivers: You still hold the meeting.
```

```
343
00:48:27.750 --> 00:48:35.460
Salmon Rivers: Yeah, yeah. But there have been times that meetings were
cancelled and I drove there and nobody that was two miles away from the
meeting attendance.
344
00:48:37.080 --> 00:48:38.520
Salmon Rivers: That's why I have a four wheel drive.
345
00:48:43.230 --> 00:48:47.400
Salmon Rivers: Not Katie still there. Well, this is somebody else dialed
in, and I'm not sure who it is.
346
00:48:47.490 --> 00:48:51.210
Kathy Wilkinson: It's 3154 Kathy Wilkinson.
347
00:48:51.270 --> 00:48:53.190
Salmon Rivers: Kathy. Yay, we're going to add you to the
348
00:48:53.190 --> 00:48:55.980
Salmon Rivers: Attendance was congratulations are the new chairman of
salmon.
349
00:48:55.980 --> 00:48:56.460
Rivers.
350
00:48:59.520 --> 00:49:01.740
Kathy Wilkinson: Sorry, I'm having phone difficulties.
351
00:49:05.130 --> 00:49:06.150
Salmon Rivers: Just kidding. We didn't we
352
00:49:06.150 --> 00:49:07.290
Salmon Rivers: didn't contemplate
353
00:49:07.320 --> 00:49:20.760
Salmon Rivers: putting you into a position because you weren't here and
available to decline know he he failed all our all our positions with the
elections and we opted to vote people in for 20 and to get a
354
00:49:20.940 --> 00:49:22.290
Salmon Rivers: Head Start on things we
```

```
355
00:49:22.350 --> 00:49:24.270
Salmon Rivers: Elected them for 2021 as well.
00:49:25.830 --> 00:49:27.660
Salmon Rivers: Sounds like a good idea. Yeah.
357
00:49:28.110 --> 00:49:29.160
Kathy Wilkinson: Yeah, so I'm happy.
358
00:49:29.160 --> 00:49:31.050
Salmon Rivers: You're able to to join us.
359
00:49:32.460 --> 00:49:39.540
Salmon Rivers: To recap, the, the meeting. Just a little bit. Katie gave
a report. I'm going. I'll write up a meeting notes on all this but Katie
provided her report.
360
00:49:40.380 --> 00:49:57.990
Salmon Rivers: We elected Bella's and Jackie Murphy as vice chairman in
the village and parish companies is fiscal agent or moving forward on a
meeting contractor. We're assuming the cost of the cell phone that we
agreed to when we changed from the relationship with today will be a
contract.
361
00:49:59.190 --> 00:50:10.410
Salmon Rivers: We approved purchasing along with North Shore, a newer
laptop and a color laser printer and you got by email a copy of the
362
00:50:13.080 --> 00:50:28.890
Salmon Rivers: Inner municipal agreement for the next five years, which
only changes in date and we would like to introduce to the municipalities
in December, if it's okay to everybody. After they've had a chance to
review it. If you have any objections, let me know and
363
00:50:29.400 --> 00:50:31.350
Salmon Rivers: That's been basically our meeting.
364
00:50:31.440 --> 00:50:42.480
Salmon Rivers: To this point, you're talking about our next meeting. Bill
was suggesting that January 2021 might not be realistic for our next
meeting because things are really so much up in the air. Still with
365
```

00:50:43.170 --> 00:50:51.780

Salmon Rivers: With Colvin really everything is up in the air and we've taken care of. What we need to take care of immediately in terms of we elected our officers for 2021 so

366

00:50:52.320 --> 00:51:02.820

Salmon Rivers: I guess the alternative to that would be, and we also talked about how some communities are doing things sometimes exclusively by zoom because it's an option so

367

00:51:03.000 --> 00:51:04.800

Salmon Rivers: Much potential for the

368

00:51:05.970 --> 00:51:07.770

Salmon Rivers: For the next seminars meeting.

369

00:51:09.480 --> 00:51:12.720

Salmon Rivers: Depending on what the circumstances are both code wise and weather wise.

370

00:51:13.920 --> 00:51:15.210

Salmon Rivers: That's basically where we are. I

371

00:51:15.210 --> 00:51:17.490

Salmon Rivers: Think we're considering at this point that all

372

00:51:18.120 --> 00:51:24.540

Salmon Rivers: Work with Dylan all the supervisors and mirrors on when we need to meet next and the things that all

373

00:51:26.130 --> 00:51:40.080

Salmon Rivers: The reasons why we would need to meet and then we'll just play it by ear. And while we do it in person or whether we meet in Albion or we do a hybrid meeting or whatever. And that will again be up to whatever our current circumstances are

374

00:51:42.000 --> 00:51:56.460

Kathy Wilkinson: And I heard you guys talking about the zoom meetings, hopefully, we're going to get the grant that the Jacob grant. And then we're going to be putting in equipment in the court room, which is also our meeting room.

375

00:51:57.480 --> 00:52:02.820

Kathy Wilkinson: So we would be able to use the big screen TV and all of that an employee so

```
376
00:52:04.230 --> 00:52:08.310
Kathy Wilkinson: Because this is long term. I don't see this ending
anytime soon. So
377
00:52:08.760 --> 00:52:09.030
Kathy Wilkinson: Yeah.
378
00:52:09.210 --> 00:52:12.150
Salmon Rivers: Well, the other thing I was mentioning, is it really helps
us
379
00:52:13.080 --> 00:52:22.650
Salmon Rivers: You know, bring in people who wouldn't be able to attend
otherwise because of health reasons, because they're out of town. So
those are also good reasons to extend our meeting coverage.
380
00:52:24.090 --> 00:52:29.190
Kathy Wilkinson: Have been Oh Hi Kathy. No, go ahead. I was just gonna
say we've been hearing
381
00:52:29.280 --> 00:52:30.780
Katie Malinowski: rumblings and whether that
382
00:52:30.810 --> 00:52:32.700
Katie Malinowski: Happens in at what speed. It happens.
383
00:52:33.180 --> 00:52:38.310
Katie Malinowski: But from Albany, that there may be some appetite to
make this permanent this allowing
384
00:52:38.640 --> 00:52:41.010
Kathy Wilkinson: The virtual component to meetings.
00:52:41.610 --> 00:52:42.000
Katie Malinowski: To
386
00:52:42.360 --> 00:52:44.550
Kathy Wilkinson: To not have to have everyone in person.
387
00:52:45.000 --> 00:52:49.890
```

```
Katie Malinowski: Because I think people are finding it useful for many
reasons. We've discussed tonight.
388
00:52:50.970 --> 00:52:51.270
Salmon Rivers: You know,
389
00:52:52.500 --> 00:52:58.800
Kathy Wilkinson: The biggest problem with where we are located is very
limited high speed on or not.
390
00:53:00.060 --> 00:53:00.390
Kathy Wilkinson: But we
391
00:53:00.990 --> 00:53:05.580
Salmon Rivers: Do things over the phone, as you're doing now. It doesn't
need to be dial up so
392
00:53:05.640 --> 00:53:07.290
Salmon Rivers: Most people have access to a phone.
393
00:53:08.850 --> 00:53:10.350
Salmon Rivers: That's this true know
394
00:53:11.370 --> 00:53:14.790
Salmon Rivers: You can get, you know, I know you would like to see your
smiling faces, but
395
00:53:15.330 --> 00:53:15.690
You know,
396
00:53:19.470 --> 00:53:27.420
Kathy Wilkinson: Well, it cuts down on having to sanitize the building,
every. Yeah. So there's that as well. Yeah. Cuz everytime use the
building.
397
00:53:27.420 --> 00:53:30.900
Salmon Rivers: I know for communities have been pretty diligent about
sanitizing so
398
00:53:36.420 --> 00:53:40.980
Salmon Rivers: So is there anything else that we, we need to bring up
```

today.

```
399
00:53:47.850 --> 00:53:49.140
Salmon Rivers: There's not I'm
00:53:50.160 --> 00:53:54.810
Salmon Rivers: Not hearing anybody has anything to bring up. I guess we
can take emotion from somebody to adjourn.
401
00:53:58.440 --> 00:54:00.240
Kathy Wilkinson: I can do that. I'll make the motion.
402
00:54:02.520 --> 00:54:03.510
Salmon Rivers: Do you want a second that
403
00:54:04.890 --> 00:54:05.280
Salmon Rivers: Second,
404
00:54:08.280 --> 00:54:08.970
Salmon Rivers: There we go.
405
00:54:12.480 --> 00:54:14.880
Salmon Rivers: Okay, so is everybody in favor of that.
406
00:54:17.130 --> 00:54:18.180
Kathy Wilkinson: I think everybody's in
407
00:54:18.180 --> 00:54:25.470
Salmon Rivers: Favor of that. Very good. Well, thank you everybody for
coming to Albion and coming here, virtually through zoom and
408
00:54:26.940 --> 00:54:29.670
Salmon Rivers: Look forward to the interesting days ahead.
409
00:54:31.650 --> 00:54:33.450
Katie Malinowski: Thanks. My fantasies room.
410
00:54:33.780 --> 00:54:34.890
Mike Faulkner: Sure, no problem.
411
00:54:35.280 \longrightarrow 00:54:37.050
Katie Malinowski: They all say you have a good Thanksqiving.
```

412

00:54:39.480 --> 00:54:41.910

Mike Faulkner: Everybody take care. Take care.

413

00:54:42.870 --> 00:54:43.230

Kathy Wilkinson: Bye bye.
